The new Showtec Lampy DMX lighting controller: Maximise creativity

The new Showtec Lampy light controllers offer strong features and a very user-friendly and intuitive interface that makes shows easy, fast and fun to design and control.

The Showtec Lampy series consists of 2 models, the Lampy 20 with 10 multifunctional faders and the Lampy 40 with 30 multifunctional faders. Both are available in a 1 and 2 DMX universe version. The 2 universe versions offer next to the extra universe also ArtNet and sACN, groups, presets, fixture view, virtual playbacks, cue-list window and DMX output window on an external (touch) screen.

Via the optional Lampy DNGL, which is connected via a USB port, the 1 universe versions can be upgraded to 2 universes with the corresponding extra features.

Designing and controlling a light show for a small to medium sized set up has never been easier and never so enjoyable. Be surprised by the looks, the intuitive operation and the ease of use of the Showtec Lampy light controllers.

## LAMPY 20 1U

**50740** 1 Universe 20-fader DMX console

**Special features:**
• DMX Console with state-of-the-art look and feel for controlling any static and moving light effect suited for various venues
• Clear workflow with large 10.1" touchscreen, multicolor indicator LEDs and four encoder wheels with 1.3" OLED display
• Intuitive virtual environment with Fixture View, Quick Color Picker, OSC and second screen possibility
• Easy control of advanced light effects with complete built-in effect engine for quickly accessing stunning effects
• Industrial floating design with cue list lighting and optional USB light
• Freely assignable 10 multifunction faders and 10 playback faders with 9 memory storage pages
• Optional Lampy dongle for more DMX channels, ArtNet, sACN and access to all external monitor features

| Universes: | 1 | Encoders Display Type: | OLED |
| Power Supply: | 100-240VAC 50-60Hz | Desklight: | Built-in Worklight |
| Power Consumption: | 50 W | | |
| Power Connector in: | ProPower Blue | | |
| DMX Connector out: | XLR 3P / XLR 5P | | |
| Data Connector in: | USB | | |

The Showtec Lampy 20 1U is a fully featured DMX console with state-of-the-art look and feel designed to control static and moving light effects suited for various venues. Its industrial, floating design, with 10.1" touchscreen and multicolor indicator LEDs, enable a quick and clear workflow in an utmost intuitive manner.

Arranging existing elements is now easier than ever before with customizable workspaces and Fixture View for a clear virtual stage layout with easy pick, drag and drop control. You can also easily pick any color you'd like and control every moving light precisely to your desired outcome in no time. The Lampy 20 1U enables you to add an external (touch)screen and also to take full mobile control over your fixtures via an iPad or tablet, since it is OSC compatible.

You can easily create any complicated and stunning show effect with its complete built-in effect engine. Unlike most comparable DMX consoles, the Lampy 20 1U has no less than four encoder wheels with 1.3"" OLED display for visual function information.

You can extend its software capabilities to two universes by adding an optional Showtec Lampy Dongle (50737). It doubles its DMX channels up to 1024, enables ArtNet, sACN and provide access to all external monitor features.

If 10 multifunction faders and 10 playback faders with cue buttons are not sufficient for your practice, we recommend to check out our Lampy 40 with 20 additional multifunction faders while using the same 9 memory pages for sufficient storage space.

## LAMPY 20 2U

**50741**  2 Universe 20-fader DMX console

**Special features:**

• DMX Console with state-of-the-art look and feel for controlling any static and moving light effect suited for various venues
• Clear workflow with large 10.1" touchscreen, multicolor indicator LEDs and four encoder wheels with 1.3" OLED display
• Intuitive virtual environment with Fixture View, Quick Color Picker, OSC and second screen possibility
• Easy control of advanced light effects with complete built-in effect engine for quickly accessing stunning effects
• Industrial floating design with cue list lighting and optional USB light
• Freely assignable 10 multifunction faders and 10 playback faders with 9 memory storage pages
• Two DMX Universes with 1024 DMX channels, ArtNet, sACN and access to all external monitor features
