Modular 19-inch 1U 48-Port Shielded Blank Patch Panel for Keystone Jacks - Maximize Connectivity in Minimal Space

With its slim 1U installation height, this rack-mount blank patch panel provides you with more connectivity options in limited rack space. The numbered ports seamlessly accommodate keystone jacks and offer easy device identification. A removable cable-management bar helps keep cables in place. The included grounding wire shields your valuable equipment from external electrical surges to ensure the longevity of your network infrastructure. Construction from sturdy, high-quality, cold-rolled SPCC steel guarantees reliability for many years. A cage nut set with four cage nuts, four M6 screws and four plastic washers are included to make your installation easier. This patch panel supports voice, data, audio, video, and fiber-optic distribution. It is ideal for a wide range of applications in small to medium-sized businesses, making it an excellent choice for IT professionals in various industries.
