

# Ceiling mounts

## for projectors

*Not only the projector itself is an important element in a professional installation.*

*Quick Installation, adjustment features and stability of the accessories are features just as important.*

**Audipack®**

*It's great to have solutions...*

# Ultimate flexibility

## with the Audipack ceiling mounts

Audipack introduces the new generation ceiling mounts for projectors offering the new Quatro-Fix® and UTS brand related installation program.

### Quatro-Fix®, The allrounder

The Quatro-Fix® projector mount offers a maximum flexibility to set up any projector up to 20 Kg with the most complicated installation patterns.

The Quatro-Fix® ceiling mounts and the brand related mounts are equipped with a special new designed ball joint that allows to aim the projector almost effortlessly. The ball joint is designed in a way that the projector rotates from its own point of gravity. That means a flexible and almost friction less adjustment.

### UTS, for projector mounts and more.

Audipack also offers brand related projector mounts combined with the **NEW** UTS (Universal Tube Set) from stock; for any brand and type projector. Brand related mounts are always the perfect match that complies to manufactures installation guides and norms.

For this type of ceiling mount an additional projector or camera mount is needed to complete the set.

UTS + brand related mount = the perfect solution

- ▲ Rigid and safe construction
- ▲ Any configuration possible
- ▲ Very flexible
- ▲ Integrated cable ducts

### Quick release, the perfect AV rental solution ...

Look no further for a fast and easy ceiling mount for exchanging your projector. The Quick Release ball joint provide swift installation; specially designed for professional rental & stage use.

Installation on site is safe and swift!

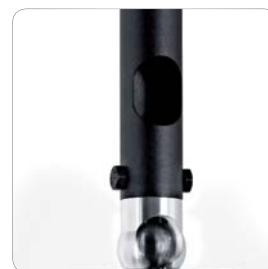

Quick installation with bayonet feature (telescopic only)

Perfect adjustment with telescopic feature (telescopic only)

Angle adjustment in degrees	30° + 30°
Fine tune adjustment in degrees	-3°, +3°
Horizontal shift in mm	60

The Quick Release ceiling mounts are ergonomic solutions added to the HW ceiling mounts.

The special releasable ball-joint allows to remove the projector without any tools.

The ingenious construction releases the ball joint adjustment and provides an instant projector swap.
